

HOOPER PARDONS CONVICTS

Ignoring Several Hundred Applications With Political "Pull"

TUBERCULOSIS HOSPITAL

Planned by Tennessee Governor Because State Makes No Provision for Official Inmates.

Nashville, Tenn., Dec. 23.—In the investigation of cases for executive clemency on Christmas Day, Governor Ben W. Hooper, during his three days' stay at the State penitentiary, finds shocking conditions there as to the prevalence of tuberculosis. In making up his list of Christmas pardons he is compelled, against his own judgment to turn out prisoners afflicted with consumption because the penitentiary system of Tennessee makes no hospital provision for the afflicted convicts.

So impressed is Governor Hooper with the effect of this dreadful scourge that he intends to have a tuberculosis hospital, and he intimates that the law will be strained to erect one, since authority cannot be had by immediate legislation. The general assembly does not convene for over a year.

In concluding work on a list of 22, slated for clemency, Tennessee's anti-pardon governor recognized only the friendless, the diseased and the crippled.

Regarding the latter, it is well known that scores of convicts have been injured and killed in the state coal mines, and Governor Hooper has taken the stand that when a convict becomes injured in the employ of the state he receives more punishment than was intended and he should, therefore, get his original sentence reduced.

The Governor unhesitatingly gives absolute pardon to such crippled prisoners as he found in the main prison and he states that he has other cases under consideration upon which he would act before Christmas day.

Of the 22 cases passed on 3 are commutation, 8 are conditional and 11 are absolute pardons. The conditional pardons are under an unused act, which allows the governor to make his own conditions. He names among others that the five prisoners on probation shall abstain from the use of liquor, shall not visit places where intoxicants are sold, shall not gamble and shall remain law-abiding citizens and report to the warden, observing the conditions for one year.

In no case, except in instances where they are close to death from disease, are convicts given any consideration unless good prison records are shown. To get pardoned means to be good in the governor's eyes.

In most of the cases acted on there were no petitions on file and some were dug up by the governor in his day and night rounds to prison, when he mingled among the confined people.

There are applications by the hundreds on file by prisoners, who have a "pull" but in no case did the anti-pardon governor recognize the class that is known as "political pardons."

In the commutation class Miguel Santos a Jap waiter, has his sentence reduced. He had picked up a pocketbook in a restaurant that contained \$1,000 worth of diamonds. He just kept it because his fellow workmen advised him to do so.

In pardoning Jesse R. Ramsey, of Jackson County, the Ramsey-Hensley fight was recalled in a case which the Supreme Court designated as the "biggest" battle on Tennessee's soil.

CHASING THE FAIRIES. Springfield, O., Dec. 23.—Irene McDonald, 12 years old, a resident of the I. O. O. F. State Home, had a narrow escape from serious injury late last night while chasing Christmas fairies in her sleep. The first dress rehearsal for the Christmas cantata was held at the home and Irene watched the little fairies.

After she had retired she dreamed that a crowd of the fairies was running through her room and she sprang out of bed and started after them, chasing them to the window. She walked out of the window and fell to the concrete floor below, a distance of 15 feet. She escaped with a few bruises. The fall awakened her and she entered the building, where she was met by a nurse, who returned her to her room. The girl remembered her dream vividly but she had no recollection of falling out of the window. She must have opened the latter as the nurse remembers distinctly of closing it.

CUYAHOGO CO. PRISONER IS PARDONED TODAY

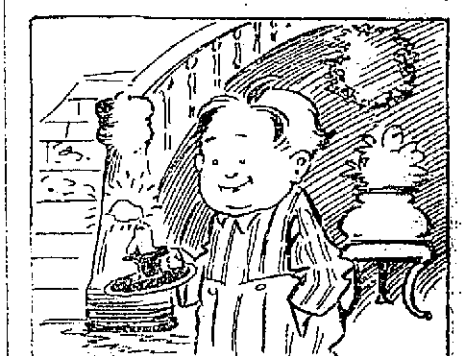

Columbus, Dec. 23.—Governor Harmon today granted a pardon to Anthony Byron, convicted in Cuyahoga county and sentenced to serve eighteen months in the prison for forgery. Byron, it was shown at the trial, presented a forged check to a Cleveland piano company as payment on a piano and received a cash difference of \$200.

BRIGANDS GET \$85,000 HAUL FROM VESSEL

Marbin, Manchuria, Dec. 23.—A band of Chinese brigands today attacked an imperial vessel which was on the way to Kikrian with a large amount of gold bullion and secured \$85,000. Many soldiers are deserting from the army and joining the ranks of the brigands, who live openly by plundering. Murders occur frequently along the highways and roads and brigands even attack settlements of considerable size and do not hesitate to murder the inhabitants when they offer resistance.

WRITES FAREWELL: ENDS LIFE. Toledo, Dec. 23.—After writing a farewell note in which he said he was tired of life on account of ill health, Lutz A. Job, aged 39, a printer, jumped into the Maumee river and was drowned. His body was recovered a few hours later.

London.—Scores of miners are believed to have been drowned in the Cross Tetley mine near Wigan. A reservoir broke through the walls, completely flooding the working. Two hundred miners were at work at the time, and it is feared few, if any, will escape.

DRYS WIN VICTORY IN WAYNE

Athens Remains Dry Under Beal Law—Washington County to Vote.

Wet to Date. Dry to Date. Scioto. Meigs. Lawrence. Ashtabula. Wyandot. Warren. Marion. Belmont. Pickaway. Columbiana. Perry. Coshocton. Darke. Muskingum. Hocking. Tuscarawas. Jefferson.

Changes of Sentiment Wayne, 1,428. Counties Yet to Vote. Pike, December 27. Brown, December 28. Licking, January 6. Washington, January 13.

Wooster, Dec. 23.—In its second election under the Rose law, Wayne county yesterday gave an unexpected majority of 2,320 for the dries as against 399 majority in 1908, when 13 saloons were voted out. The county districts polled big dry votes and the villages followed suit, only eight of the 51 precincts going wet. Wooster, the county seat and containing Wooster university, a Presbyterian institution, voted dry by 174 as against 13 wet three years ago. Orrville went dry by 102.

The dries, after conducting a vigorous campaign, were confident of success, but the heaviness of the majority was a surprise even to them. The wetts lacked organization and did but little work, while the dries held nightly meetings and published a campaign newspaper.

Students of Wooster university led in building a huge bonfire and in a parade over the muddy streets last night when the result became known.

REMAINS DRY.

Athens, Dec. 23.—For the fourth time in its history, twice under the Rose law and twice under the Beal law, Athens yesterday voted dry. The first election, held under the Beal law four years ago, was won by a majority of 13. Yesterday's election, under the same statute, resulted in a dry majority of 237. When the county went dry under the Rose law three years ago the city gave a dry majority of 214 and last month, under the second Rose law election, it gave a dry majority of 87. This city is the seat of Ohio university, which gave more than 200 dry votes. President Alston Ellis was one of the dry leaders.

PETITIONS FILED Marietta, O., Dec. 23.—The Washington County Tax Law and Order League last night filed petitions with the county commissioners with nearly 5,000 names attached, requesting the holding of a local option election on January 13. Fourteen petitions did not reach the city in time for filing last night. They would have increased the total signatures to more than 6,000. The total vote of the county is 9,500.

JAPS PLAN ARMY OF INTERVENTION

Tokio, Dec. 23.—Although the reports of Japanese military intervention in China are premature, it is understood that preparations have been completed to send an expedition to China in the event of necessity. The belief prevails here that the Shanghai peace conference is a pretext on the part of both the revolutionists and the imperialists in order that they may strengthen their military positions.

CONTRACTOR'S HOME WRECKED BY GAS

Wheeling, W. Va., Dec. 23.—In a terrific gas explosion which wrecked his home, Contractor James Nichols of Wheeling Island, was fatally injured last night. The wife and daughter of the contractor were also burned but their injuries will not prove fatal. The wall of the side of the house was blown out. The loss will be considerable.

Jury Denounces Police Court Method

Cleveland, Dec. 23.—The county grand jury yesterday returned an indictment charging manslaughter against Frank Lyons, Sr., Frank Lyons, his son, and Leonard Lyons, his brother. The indictment follows closely: blither attack of Assistant County Prosecutor Ezra Brudno upon police court methods.

Brudno declared that Lyons, Sr., had benefited from a political "pull" in the police court, where he had been arraigned several times. The men are charged with being responsible for the death of Daniel Moran, who died after an attack, alleged to have been made on him by the Lyons.

A PENITENTIARY SENTENCE FACED BY CARL RAMSEY

MICHIGAN TOWN EXCITEDLY AWAITS DISCLOSURES EXPECTED WHEN WOMAN CHARGED WITH POISONING HER SON IS BROUGHT TO COURT

Mrs. Carrie B. Sparling is to be arraigned in court December 23 at Bad Axe, Mich., for preliminary examination on the charge of murdering her son, Cyril. The little town of Uby, where Mrs. Sparling lives, is alive with excitement over disclosures expected at the hearing. Within the last two years, the prisoner's husband and two other sons have died mysteriously, and the Huron county prosecutor is investigating the circumstances surrounding their demise. Dr. Robert A. McGregor, of Uby, the family physician, and Miss Margaret Gibbs, of Port Huron, a nurse, are also held. Dr. McGregor charged with murder and without bail, Miss Gibbs charged with being an accessary after the fact. She was released on \$1,000 bail. Both have been bound over to circuit court, which convenes January 26.

A Merry Christmas

The Advocate extends to the people of Newark and Licking county, as well as to its many friends and readers more remote, a hearty Christmas greeting and all good wishes.

The real joy of Christmas is in giving happiness to others, in remembering and helping those who need help, those who without your assistance would have little cause for happiness, in giving to one without thought of receiving anything in return.

Those who have experienced this real satisfaction know what it means. It is good to exchange gifts with one's friends, but it is infinitely more delightful to give to those who could not, if they would, return the compliment.

At this season of good cheer, let us remember the unfortunate, the sick, the children who may be forgotten by Santa Claus. If you are in doubt where to distribute your gifts telephone No. 1417 (Automatic) to Trust Officer Frank Handle.

In order that the men and women, the boys and girls who make the Advocate, may all enjoy Christmas, no edition of the paper will be published on Christmas day.

May Christmas joy and peace come to all.

POISON IN FAMILY FOOD KILLS TWO

Henderson, Ky., Dec. 23.—Henry Royster, 20 years old, and Ret Davis, a negro cook, are dead, and Thomas Royster of Robards, a wealthy farmer, and his daughter, Lucine Royster, 13 years old, are at the point of death as the result of being poisoned. Another negro servant is also in a critical condition.

The poison is thought to have been administered with murderous intent by persons whose names will not be divulged by the officers and relatives of the family. Sheriff Abbott, with a deputy, proceeded to the scene, and it is expected that arrests will follow today.

It was shortly after eating his supper that Henry Royster, the son, was taken suddenly ill with cramps. Physicians were sent for and efforts made to relieve him, but without avail, and he died in great agony.

While Henry Royster was in the throes of death Ret Davis, a negro woman, a servant in the family of the Roysters, was also taken violently ill her convulsions being similar to those of Royster. Despite all efforts to administer relief she soon passed away. Lucine, the 13-year-old daughter was the next to be taken suddenly ill and her illness was followed by the sudden and serious illness of Thomas T. Royster. By this time three doctors had been summoned and are trying to save other members of the family.

Sheriff Abbott says he has under surveillance a person who visited the Royster home and who is said to have been in love with one of the Royster girls, but had been repulsed. Yesterday afternoon the person

called at the Royster home, stating that his visit was only friendly. He brought with him fruit and beer, which he declared he wanted to give as Christmas presents. It is not known whether the Royster family ate or drank of the food or beer which the visitor brought into the house.

The Henderson detectives and Sheriff Abbott have brought all the food and liquor in the house to Henderson and will have it examined by a chemist.

When neighbors pursued him Fodor shot and fatally wounded himself.

Mrs. Elizabeth Viass, 19 years old, was the victim. Her husband, Sherman Viass, was also shot at by Fodor, but was not wounded.

NAVAL COMMANDER WINS DIVORCE SUIT

New York, Dec. 23.—Mrs. Alotta Benton's divorce suit against Lieutenant Commander Frederick L. Benton, surgeon on the Battleship Idaho, was dismissed yesterday by the Appellate Division of the Supreme Court. It was decided that Mrs. Benton had not proven her allegations.

The Bentsons were married in Washington in 1905. Benton served in the Spanish war and in the Chinese relief expedition for services during which he received two congressional medals.

PROMOTERS SENTENCED TO PRISON

Four Members of Stock Firm Given One Year Each

MADE MANY MILLIONS

By Using the Mails to Defraud—Plea for Clemency Was Effective.

New York, Dec. 23.—As punishment for carrying on a stock swindle by mail alleged to have extended over a period of two years and to have netted millions in profits, four promoters of the firm of Burr Brothers, incorporated, were each sentenced to a year's imprisonment on Blackwell's island.

The prisoners are Sheldon C. Burr, brother, Eugene H., who was secretary-treasurer; Charles H. Tobey, vice president, and Edwin Wesley Preston. Unexpectedly they offered pleas of guilty before Judge Hill in the criminal branch of the United States Circuit Court late yesterday.

The indictment upon which they were called to face trial specially charged a swindle involving \$68,000 in connection with the sale of the stock of the People's Association Oil Company, but the government alleged that this was but one of a continuing series of frauds estimated to have involved nearly \$50,000,000 with \$1,000,000 profit to the promoters.

Counsel for the defendants declared that rather than involve the expense of summoning witnesses from distant points it was decided to plead guilty to the specific indictment. The maximum sentence possible on this charge is 18 months and counsel for the defendants urged clemency. It was argued that the promoters had reason to believe that the stocks would prove profitable but now realized that the presentations made concerning the enterprise were too strong.

United States District Attorney Wise opposed the plea for clemency. Judge Holt pronounced sentence as a year each, and the men were taken to the island last night.

A little over a year ago the four men were prospering, occupying expensive offices in a Broadway skyscraper. On Nov. 20, 1910, federal agents raided their office in connection with a general round-up of mail stock swindlers ordered by Postmaster General Hitchcock.

Their business had mainly been the sale of stocks and bonds and oil and gold mining enterprises.

The government had other indictments pending, but none had been returned, and it was agreed in open court that with pleas of guilty in the case at hand further prosecution would be abandoned.

CAN'T LOCATE HOY'S SON AT MARION, O.

BODY WILL BE BURIED IN CEDAR
HILL CEMETERY SUND.
DAY AFTERNOON.

Hoy Left Two Letters Addressed to
His Wife at House Where He
Shot Himself.

All efforts of the police department and coroner to locate Walter Hoy, son of James Hoy, who committed suicide yesterday morning have failed, and the funeral services will be held here Sunday afternoon at 1:30 o'clock from the undertaking parlors of J. A. McGonagle.

Mr. McGonagle this morning got into long distance telephone communication with a sister of Mr. Hoy at Ada. She replied that she could not come and could not do anything in the matter.

A thorough examination of the articles found on the body when taken charge of by the coroner revealed two letters stamped and ready for mailing to Mrs. Clara Hoy 172 Burr avenue. The coroner did not open the letters and their contents are not known.

An ordinary writing tablet contained a note written on the blotter which read:

"Clara I have no use for these. You can have them and welcome to them." (Signed) Jim

On another page these words were written in Hoy's handwriting: "Now then I hope you will get in good hands for I think you had better do that."

A box containing a number of old coins and a large piece of paper bearing the address "Walter Hoy, Francisco avenue, Marion, O." had a penciled note requesting that the box and contents be sent to the address contained.

A number of other articles of little consequence were found. A quantity of cartridges for use in the revolver with which the shooting was done was found in his pockets.

Coroner Wiywarch states that a note was found addressed to no one in particular but presumed to have been intended for Mrs. Hoy in which Hoy wrote, "I told you I would do it."

This statement probably has reference to Hoy's threat in a letter to his wife in which he said he would kill himself on her own doorstep.

AN EGYPTIAN COSTUME

TESTIFIES AGAINST EMPLOYERS OF GIRLS

Isaac Stern

Isaac Stern, superintendent of the Ashe building, New York, where a hundred and forty girl employees of the Triangle Waist Company met death in the fire of March 25 last, was a valuable witness for the prosecution in the trial of the proprietors of the company, who are formally charged with responsibility for the death of one of the girls. The sketch shows him as he appeared on the stand.

This striking costume was made for a fashionable fancy dress function this winter.

Rhyme of the Man Shopper

By Wilbur D. Nesbit

It is a pallid, weary man; He stoppeth one of three. "By thy white cheek and blazing eye, Now, wherefore stoppest me?"

"Oh, sir," the worried man exclaimed, "I fain would have thee tell Where I may find within this store The things they have to sell."

For it was in a Christmas store That all of this took place. 'Twas there the frenzied man was seen With hopeless, troubled face.

The stranger man would fain begone From him of haggard eye; Besides, the aisle was crowded with The folks who would go by.

"I pray thee," said the stranger man, "Go chase thyself from me." "Ah, sir," the other man implored— "A woeeful wight was he."

"A tortoise comb, a pair of skates, A whole carload of toys, Some things beside for all my friends, And for their girls and boys."

"And here I am, and I am here; The things—oh, where are they? For male and female clerks conspire To hide from me the way."

"But this I know, and this alone: Three aisles across, then back, Four counters down, one counter up, Then double on your track."

The elevator takes you next, To land you otherwhere; And when you weary of its crowd, You amble down the stairs."

"But still, my honest friend, You do not reach the goal. 'Tis always on the other side, 'Tis, upon my soul!"

"So here am I, and I am here, And you are standing by, I care not where the things may be, But where the deuce am I?"

They led him to an ambulance, Although he did resist, And now in padded cell he cons, His Christmas shopping list.

He shrieks upon the midnight clear, And on the noonday air: "Three aisles across, two counters back, Then up and down the stair!"

Oh, foolish men, take heed of this, Before you go to shop, And when you reach the outer door, Tear up your list and stop.

AT THE PECKS.

"Humph!" said Mrs. Henry Peck, "This paper has a lot of alleged jokes about women giving their husbands cigars for Christmas presents. I think that any woman who is fool enough to give her husband a box of the vile things ought to—Why, where's Henry gone?"

But Henry was out in the hall shaking hands with himself.

Quieting Her Suspicions. "My dear," said the Suspicious Wife, "This sealskin sack you gave me for Christmas has the odor of gasoline."

"Very likely," answered the Crafty Husband. "But you know Santa Claus is using an automobile now."

Nevertheless, she had her doubts about it, fearing that he had purchased the garment second-handed of a cleaner.

SNOW MAY COME FOR CHRISTMAS DAY

There is a bare possibility that we may have a white Christmas after all. The indications are for colder weather, which may bring snow. The mercury stood at 28 degrees above zero at 5 o'clock Saturday afternoon and was slowly falling. The day before Christmas last year it began snowing, following a rain, and the streets became very slushy, but we had a white Christmas. Christmas night, however, it began freezing and by Monday morning the streets and sidewalks were a glare of ice.

Perhaps if every nose didn't have its thorn it wouldn't be so alluring. The man who is as steady as clockwork isn't the one who lives on tick.

ECZEMA (Also Called Tetter, Salt Rheum, Furuncus, Milk-Crust, Weeping Skin, etc.)

ECZEMA CAN BE CURED TO STAY, and when I say cured, I mean just what I say—CURED, and not merely patched up for awhile, to return worse than before. Remember I make this broad statement after putting ten years of my time on this one disease and in the making in the mean time a quarter of a million cases of this dreadful disease. Now, I do not care what all you have used, nor how many doctors have told you that you could not be cured—all I ask is just a chance to show you that I know what I am talking about. If you will write me TO-DAY, I will send you a FREE TRIAL of my mind, soothing, guaranteed cure that will convince you more in a day than I for anyone else could in a month's time. If you are disgusted and discouraged, I dare you to give me a chance to prove my claims. By writing me to-day you will enjoy more real comfort than you had ever thought this world holds for you. Just try it and you will see I am telling you the truth.

THE ADVOCATE

WISHES A MERRY CHRISTMAS TO ALL

Old probabilities will hardly re-
deem the promise of a white Christ-
mas, with clear, bracing atmosphere
held out a few weeks ago. That is,
the old-time Christmas so much talked
of, but we suspect it is largely, as to
this latitude, an imaginary retrospect.
The weather for a given period, holds
about the same average as it did a
century ago. The white Christmas is
a Northern certainty, but only an oc-
casional on the southern line of the
middle states.

Still, whether it rains or hails,
snows or sleet, is bright or murky,
the day is ever welcome with its mem-
ories, its pleasures, and duties. Memo-
ries for the old, pleasures for the
young, and duties for all; the fore-
most duty being to temper and heighten
your own enjoyment by thought and
care for those in our vicinity who
may be on the long roll of the world's
unfortunates, the needy and the sad
at heart. That, however, has become
one of the accepted golden rules of
the Christmas time, and The Advocate
is not a preacher of charity ser-
mons, when only a hint or a reminder
is needed. And so we wish our
large constituency a merry, happy
Christmas. The text for the day is
"Peace on Earth and Good Will
Among Men."

Democratic "thunder" seems to be
in high favor with the President. He
may steal as much of it as he likes;
what the American people really care
for are the things the denial whereof
makes the "thunder" reverberate
through the land.

SAVING AT STATE INSTITUTIONS

By a rule which has been put into
effect by the board of administration
of state institutions, employees of in-
stitutions will not be allowed to en-
ertain guests at the institutions at
meals. This reverses former rules at
practically all the institutions.

"We are not keeping boarders," ex-
pressed President Thurman in com-
menting on the board's ruling.

For many years attacks of insti-
tutions have been lavish entertainers.
In some places, visitors always were
about.
Reviewing three months of the work
of Superintendent of Substinence G.
W. Nass at the penitentiary, President
Thurman pointed to a saving of
more than \$6,000 in food alone and
declared in addition that the prison-
ers had had more and better food
than before. A great amount of money
also has been saved in coal. "There
is a different spirit in all the insti-
tutions," said Thurman. "The super-
intendents know what we will stand

behind them and that they are ex-
pected to run the institutions. They
are learning more about their places,
too, and I think the institutions are
being conducted in a better way than
they have been in the history of the
state."

OHIO'S SOUND BUSINESS BASIS

For the first time since it was
granted admission to the Union, the
State of Ohio has adopted the basic
principle of all-sound business enter-
prises and has taken an inventory of
its property.

The State Board of Administration
finishes its addition of the values re-
turned by the superintendents of the
various penal and benevolent institu-
tions under its care. The total showed
that the state has invested \$20,276,975
in 13 such institutions.

The inventory shows in detail how
the public money is invested, separate
accounting being made of land, build-
ings, furniture, live stock, clothing,
food, tools and other material.

From these returns the State Board
will be enabled to calculate in scien-
tific fashion and will be enabled to re-
commend appropriations from the Gen-
eral Assembly in proper fashion in-
stead of the old hit-or-miss system of
bygone days.

In the future those in charge of the
various institutions will be compelled
to account for all property described
in the inventories and in this way a
check will be kept on furniture, car-
pets, clothing and movable chattels
generally, it being the intention to
check up each year, as is done in
business houses that are well man-
aged.

The inventory shows that the state
owns \$2,480,714.12 in land and \$15,-
469,218.12 in buildings. Value of fur-
niture is estimated at \$310,578.51, es-
timated value of machinery is \$520,-
872.21, live stock \$125,858.28.

Valuation of buildings and land was
made for the most part by institution
superintendents, who based their cal-
culations on valuation made of sur-
rounding property for purposes of tax-
ation by taxing officials. In a few
cases the valuations were given as the
total amount of money which the state
expended in purchase of land and con-
struction of buildings.

What Lowered Taxes.

The Cleveland News, Republican,
says:

"Most home owners in Cleveland,
who are now receiving their 1911 tax
bills, have discovered that their taxes
are much lower than they were last
year. They may not understand why
it is all explained in the tenth annual
report of the Cleveland board of re-
view, just issued.

"The Smith one per cent law,
coupled with the re-appraisal of real
estate in 1909 did it. Under the
Smith law the tax rate for all pur-
poses in Cleveland this year is 1.35
per cent. In 1910 the tax rate was
1.45 per cent. The Smith law was
forced through the legislature despite
the opposition of a Republican min-
ority.

Down in their boots the most obdu-
rate and hardened Protectionists were
astounded of Schedule K. It was pa-
ternalism run mad. As a conse-
quence proposed rectification at the
hands of a Congress, Democratic in
one branch and Republican in the
other, upon the recommendation of a
Republican President and upon the
findings of an expert commission, does
not in the least affect the business of
the country. It is the rectification of
an outrageous plundering blunder.

After reading the report of the
Tariff Board Mr. Wan, Wood of the
American Woolen company, says:
"The report as a whole confirms the
need of substantially the same rate of
protection as that now embodied in
Schedule K, excepting the low-cost
fabrics." And yet the President im-
agined that a report from his five in-
vestigators would convince everybody
and open the way for unanimous
legislation.

THE CHRISTMAS SEASON

Now comes the cheerful season when
people smile all day and is there any
person who it should pass away? The
hills in yonder sleepers can't always
give their sound, but why can't human
people be kind the whole year round?
If I can grin like thunder throughout
the Christmas day, why can't I grin,
I wonder, in August, June or May? If
I can make folks happy when Christ-
mas is on deck, I never should be
serious a make of joy a wreck.
When Christmas comes I'm mellow, I
humble fifty ways, and when I meet a
fellow I wish him happy days. But

NEWARK TO VOTE

(From the Ashland Beacon, Dec.
20, 1911.)

Licking county is to hold a "wet
or dry" election again on January 6,
1912. Newark, the city which hang-
ed the dry defective to a telegraph
pole a year and a half ago, is to be
given a chance to either obliterate
her shame, or else sink lower in the
eyes of Ohio and the nation. The
water visited Newark nearly every
month for some three years. It was
there the week after that lynching.
The town looked pitiful. It was
pitiful. People sat about the court
house square on the benches in the
shade of massive trees for weeks
and hung their heads in shame for
what had happened. The business
of the town was prostrated. The
governor removed the mayor and
sheriff from office because they fail-
ed to do their sworn duty on that
awful night, and put other men in
their places. Yet, it is said that the
Rose law was never enforced even
after these experiences. Saloons
were kept open.

The question now seems to be can
Newark and Licking county afford
to vote back into power the element
that disgraced them? The outside
world will not look upon this as a
wet and dry fight, but rather a con-
test between law and order on one
side, and anarchy on the other. It is
not a question of whether Newark is
"wet," but one of whether the
element which defied the law, even
unto lynching, shall again be per-
mitted to "run the city." The Bea-
con takes it that there are enough
voters in Licking county to prevent
this. The people in the country
districts can do as they did in Ash-
land county and help the good
citizens of Newark city to redeem
the town from its notorious reputa-
tion. Ohio will judge Newark not
by the wet or dry standard, but by
her good or bad citizenship in this
election. Adv.-23-11

LAW ENFORCEMENT.

Under the caption, "A Difference,
the Advocate quotes from the Co-
lonist Age. It says: "A young
man, not out of his teens, is discov-
ered to have purchased liquor. It
is learned from what place he got
it. Man arrested and maximum
penalty attached. That is the differ-
ence between regulation and "pro-
hibition."

That is not true. It is a mis-
demeanor to sell to a minor in
"dry" territory as well as in "wet
territory." That is, and does not
show the difference between regula-
tion and prohibition, but the differ-
ence between the enforcement of law
and the non-enforcement of law.

STOLE DIAMONDS VALUED AT \$6,000

Minneapolis, Minn., Dec. 23.—Diam-
onds valued at between \$6,000 and
\$7,000 inclosed in a jeweler's wallet,
were stolen from the diamond room
of the jewelry company of White &
McNaught of this city. The thief es-
caped, but a man giving his name as
W. W. Wells, is held as an accomplice.

Two well-dressed men entered the
store late yesterday afternoon and
asked to see an uncut diamond. They
were taken into the diamond room
which, because of glass partitions, is
visible from all parts of the store.

After looking at the diamonds and
agreeing upon the purchase of a stone
valued at \$50, Wells, it is said, asked
to see a bracelet. While this was be-
ing obtained, it is supposed the un-
known reached into the drawer of the
desk and got the diamonds. Shortly
after the theft was discovered and
Wells was captured, but the chief had
disappeared.

Wells was examined at police head-
quarters last night but he refused to
talk, except to say he came to Min-
neapolis from Fargo, N. D.; that he
only had met at Denver the man who
escaped, and did not know his name.

DEAFNESS CANNOT BE CURED
by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed con-
dition of the mucous lining of the Eus-
tachian Tube. When this tube is in-
flamed you have a humming sound or
imperfect hearing, and when it is en-
tirely closed, deafness is the result, and
unless the inflammation can be taken
out and this be destroyed forever, nine
cases out of ten are caused by Cat-
arrh, which is most but an inflamed
condition of the mucous surfaces.
We will give one Hundred Dollars
for any case of Deafness that can be
cured by our method. That cannot be cured
by Hall's Catarrh Cure. Send for circulars,
free.

COURT NEWS

Court Sustains Demurrer.

Judge Seward a second time sus-
tained the demurrer of the banks of
the city to the amended petition filed
by the city of Newark, claiming that
the banks owed the city interest
while the money derived from sale
of the waterworks bonds were on de-
posit in the various banks of the city
for safe keeping, until needed for
waterworks purposes. The court
held that the money was placed in
the banks merely as an ordinary de-
posit or safe keeping, that there was
no agreement or understanding that
any interest was to be paid, that the
banks undertook to pay no interest
and were not liable. The court gave
the city ten days leave to determine
whether it cared to pursue the mat-
ter further. Kibler & Kibler repre-
sented the banks in the case and the
city Solicitor the city.

Friendly Bank Suit.

A friendly suit was filed in the
Court of Common Pleas Friday by
the Franklin National Bank against
the Old Peoples' National Bank and
William L. Prout as its liquidating
agent to determine the question of
the liability of the Peoples' Bank
upon a note for \$550.00 which the
Peoples' bank turned over to the
Franklin National at the time of
the consolidation of the two banks in
1905 which note afterwards it was
developed was a forgery. The claim
of the Franklin bank is that by ex-
dorsing over to it this note upon a full
cash consideration the Peoples' bank
thereby guaranteed the genuineness
of the note and are bound to make it
good. Kibler & Kibler are making
this claim on behalf of the Franklin
bank in a petition which they filed
today as attorneys for plaintiff.

Moreland Case.

against Don Moreland, in which the
defendant entered a plea of guilty of
manslaughter for the killing of
Elsie Henthorne, near Pataskala,
the matter of the sentence has been
deferred until Tuesday morning
next. The change in the date of
sentencing the defendant was made
necessary on account from the city
of counsel for the defendant.

last election, an opportunity to regis-

GIFTS COME TO ADVOCATE

The Advocate force was made
glad Saturday forenoon by the re-
ceipt of four boxes of splendid
cigars. Accompanying the delight-
ful gift was a card reading:
"Christmas greetings and prosper-
ity for 1912."

The cigars came from Mr. Henry
Beckman's Sample Shoe store
through the courtesy of the ener-
getic and bustling manager, Mr. H.
C. Serodino.

At the same time a big basket
loaded with all sorts of good things,
came from the Arcade market,
through the courtesy of Mr. W. S.
Bender. The basket contained
great variety of fruit and was daintily
decorated with holly and mistle-
toe. The Arcade market made spe-
cial preparations for Christmas and
everything that any market contains
is to be found there in abundance
and of the right quality.

The Advocate greatly appreciates
these expressions of good will.

Express Companies Deluged With Many Christmas Packages

The volume of business transacted
by the express companies is always
considered an excellent criterion of
the business transacted in the places
where the express offices are located.
At the Adams Express office the
Christmas business is said to be
heavier than that of last year, and
on Friday and Saturday it was neces-
sary to have five wagons constantly
employed in order to deliver the large
number of packages, both outgoing
and incoming.

At the U. S. express office the re-
porter was told that while business
was not quite up to that of last year,
it was very heavy and that they
had five single wagons and one double
team constantly delivering packages.
Business was pretty evenly divided be-
tween the incoming and outgoing
packages.

Mrs. J. Pierpont Morgan Does Not Like the Newspaper Reporters

New York, Dec. 23.—Mrs. J. Pier-
pont Morgan, upon her arrival from
Europe yesterday gave the longest
interview of her life and devoted the
greater part of it to voicing her dis-
like for interviews and the "personal
side" of the newspapers.
Approached by two reporters she
spoke first:
"Who are you? Reporters?"
"The ship's officers say the pas-
sage was a stormy one," suggested
one.
"It was Mrs. Morgan replied. "I
think it was the worst storm I ever
experienced."
"Where have you been?" she was
asked.
"You must look up your files for
that. I'm not going to be interviewed.
To a woman of refinement all this
publicity is hateful. Why, the pa-
pers have printed photographs of two
of my friends (but they've never
printed mine."

"I have a camera here," said one
of the newspaper men "and if you
insist—"

"Don't you dare. If you do I'll
smash the camera," she said.

"I have often advised reporters to
take up a decent profession," she
added.

"Perhaps," said a reporter, "we
had all better write to Mr. Morgan
and tell him that we are anxious to
become bankers."

Mrs. Morgan smiled again. "I
have not suffered as much as my
daughter, who doesn't like it, either.
Oh, I like the newspapers, but I don't
like the gossip, the personal side."

"Why, I've never given such a long
interview in my life."

Paradoxical as it may seem, even
the victim of insomnia may be caught
napping.

Is A Constitutional Disease.

It manifests itself in local aches and
pains,—inflamed joints and stiff mus-

It requires constitutional treatment,
and the best is a course of the great

which corrects the acid condition of
the blood and builds up the system.

MUTILATION

Or Richeson Followed Visit of His Betrothed's Father Who Was also His Financial Backer.

Boston, Dec. 23.—It is asserted that two days prior to Rev. Mr. Richeson's mutilation of himself with a sharpened piece of tin, Moses Grant Edmonds, father of his betrothed, and his financial backer, visited him in his cell, and urged him to make a clean breast of the crime of which he is accused. Mr. Edmonds went so far, it is said, as to inform the prisoner that he was not satisfied with his explanation of his relations with Miss Linnell.

Richeson stoutly maintained his innocence. It is believed that when he realized that Edmonds was about to desert him he deliberately planned this act.

Four days prior to this visit Mr. Edmonds took his wife to Richeson's cell and the minister talked for fully a half hour, protesting his innocence. Miss Lucille Zeigler, the roommate of Miss Linnell at the Young Women's Christian Association was arrested yesterday and held in \$500 bail to insure her presence at the Richeson trial. It is said she has shown a disposition not to testify against the minister.

Richeson's counsel stated that the prisoner was in a critical condition, but Dr. Brough declared later that he expected a speedy recovery.

NEWARK HIGH SCHOOL NOTES

The Christmas holidays are here. School was dismissed Friday noon and will not be reassembled until Tuesday morning, January 2.

Many of the rooms have been very prettily decorated with Christmas ornaments. Miss Wotring and Miss Foos have their rooms decorated in German style, with articles they got while in Germany. In Miss Foos' room the words "Merry Christmas" and "Much Happiness for the New Year" were written on the board in German by Russell Keckley, while in Miss Wotring's room Irene Hey put on the words "Glory be to God in the Highest." Miss Jones, Miss Bissell and Miss McDonald have their rooms prettily decorated, laurel and mistletoe being used in the scheme of decoration.

Many of the teachers will spend Christmas at home. Some others will attend the State Teachers meeting in Columbus on December 27. Superintendent Hawkins expects to spend a few days at East Rochester, O., with his parents, who are quite old.

A finely rendered Christmas program was given in Chapel Friday morning at the chapel period. The following program was given: Selection, High School Orchestra; Song, "Holy Night," School; Scripture Reading, Luke II 8-22; Gail Keckley; Lord's Prayer in concert; Recitation, Lowell's Christmas Carol; Lon Ella Hawkins; selection, High School Orchestra; Male Chorus, "Down in the South"; selection, High School Orchestra; presentation of a Trojan Shield, purchased by the Virgil class; Quincey Cheadle; selection Orchestra. At the Christmas exercises Quincey Cheadle in behalf of the Virgil class presented to the school a full-sized Trojan Shield, an exact reproduction. This reflects great credit on the part of the class, as well as the teacher, Miss Allen.

Among some of the recent visitors to the school were graduates of former years. This shows an interest in their Alma Mater.

Mr. Bowers is still confined to his home in Westerville because of illness.

Miss Billman of the Domestic Science Department entertained all the teachers of the town with light refreshments, in the Domestic Science room Thursday, between three and four o'clock. The girls in her class assisted her in serving.

Superintendent Hawkins had a meeting of the teachers of the town, Thursday, at 4 o'clock in room 18, High school building. The purpose of the meeting was to discuss the "Personal and Professional Improvement of the Teacher."

Another number on our lecture course was given Tuesday evening by Ex-Governor Frank Hanley. He spoke very entertainingly on the subject, "The World Disarmed." The High School Orchestra which has not played at previous lectures rendered some very pleasing numbers before the lecture.

Each pupil was asked to bring a potato for the Salvation Army for the Christmas Dinner for the poor. In this way quite a few were obtained.

A flash light picture of the basketball people was taken at practice Monday. They are very good. The games at Hickey hall Thursday evening, when two good games were played between N. H. S. vs. Y. M. C. A., and N. H. S. Girls vs. Alumnae Girls. Both High school teams lost.

CHRISTMAS PACKAGES WERE NOT DISTURBED

John Baughman, residing south of Granville, reported to the police department Friday afternoon that his horse and buggy had been taken from the City Drug store corner about 2 o'clock. The buggy was filled with the results of the Christmas shopping of the Baughman family. Friday night Officer Petry found the horse and buggy hitched on Fifth street between Main and Church. It was placed in a livery stable to await its identification by Mr. Baughman. Nothing was missed from the buggy.

GIRL JOKER IS PAID BACK IN SAME WAY

Washington, Pa., Dec. 23.—Miss Louise Timmins, a seventeen-year-old girl of Mt. Hope, who preferred fun to a wedding, and failed to appear here at the appointed time to marry Herrman Webb, of West Virginia, on Thanksgiving day, now knows how unpleasant it is to be treated in that manner, for Webb has paid her back in her own coin.

Webb, who is 22 years old, met the girl last fall and they became engaged. Thanksgiving day was the date set for the wedding, and Webb came here to meet the girl to have the ceremony performed. She had gone on a visit to West Alexander, and sent word to Webb who was at the church, waiting for her, that she was having such a good time, the wedding could wait.

Webb became angry and called off the engagement. Tuesday he called on Miss Timmins and they patched up their differences and the girl agreed to come here yesterday and marry Webb.

The prospective bride and groom and the parents and friends of Miss Webb started to Washington for the ceremony. When they reached the altar Webb disappeared and there was no wedding.

Some persons suggested to the girl that she and Webb make another attempt to get married. "There will be no third time," said the girl.

Finds \$25,000 Necklace; Gets \$100 Reward

New York, Dec. 23.—Jimmy Souly's little sister was in a fair way to get a \$25,000 diamond necklace for Christmas, for Jimmy had found on the street a beautiful bauble of 239 shiny stones, which he had stowed away, thinking the stones were glass and considering the string a perfectly appropriate gift for Mary. However, when James innocently displayed his find an uproar and hurried calling in of an expert on precious stones followed.

It was speedily determined that the necklace was very valuable. Advertisements were hastily scanned and a reply to one revealed that the necklace was the property of Mrs. Mary Steinman of Tuxedo Park. In her happiness at recovering her gems she made Jimmy a present of a brand new \$100 bill.

The North Men Were Great Sailors

Daddy's Bedtime Story — Why Boys And Girls Shout Hurrah

"HURRAH!" cried Jack as he pressed his nose against the window pane before getting ready for bed. "Hurrah! It's snowing!"

"I wonder what little boys said before there was any hurrah to say?" daddy mused.

"Before? Didn't they always say that?" asked Jack.

"Oh, no," replied daddy. "We've only been saying hurrah for a little over 900 years."

"Perhaps you would like to have me tell you how it began? Very well. Then I must tell you about Roif, the Norman. Norman is short for north man. The north men were the people who lived in the far northern lands of Europe many hundreds of years ago, before Columbus sailed over the Atlantic ocean and found our America.

"The north men were great sailors. They went everywhere in their strong big ships. They thought it was no harm to rob the people of other countries, and when folks tried to drive them away they would sometimes kill the poor people.

"Roif was one of the bravest and wildest of these north men. With his men he one day came in his ships to France. The people of France sent one of their wisest bishops to talk to Roif and ask him to come and live with them instead of fighting and robbing them. It was a beautiful country, and Roif was getting along in life. He had been a sea robber for forty long years, and so he made up his mind to settle down.

"The king of France, who wanted his friendship, gave to Roif the title of Duke of Normandy, which really meant duke of the north men's land.

"Roif wished to make his new country and its people prosperous and happy, so he made many strict laws. He was the farmer's friend. Any one who hurt the crops in the field or stole cattle or bothered the farmers was sure to get into a bad scrape with the gruff old duke. He spent a good deal of his time talking about the country to see how folks were getting along.

"The French people, in whose country Roif and his sailors had come to live, called him Rou. Roif they could not say. So when a man caught any one doing any harm to his house or barn or crops or cattle he would shout, 'Ha, Rou!' hoping the giant duke might be out for a walk. After awhile it became the law that when any one raised that cry, 'Ha, Rou!' all who heard it must come to the aid of the person in trouble or be heavily fined by old Roif himself. By and by people got into the way of saying haron, or hurrah, whenever they wished to attract notice, and now everybody says it when they are pleased or excited.

"But it all began with old Duke Roif, the Norman, whose figure carved in stone may be seen to this day in the old cathedral of Rouen, in France."

Denison Students Travel.
The Pennsylvania lines had a special Pullman carload of young men and women students from Denison university, Granville, on last Wednesday evening for Chicago and points west, en route to their homes for the holidays. Mr. J. H. Smith, traveling passenger agent, accompanied the party to Chicago.

Columbus, Dec. 23.—Gracious exercising of his pardoning power by Governor Harmon brought great joy to a family of eight children in Arlington. After the arrest of the father and mother because of domestic troubles, John D. Fairman was committed to the state prison a year ago to serve two years for shooting with intent to wound, his wife who had deserted the family. He will be the one to receive the holiday pardon.

Etta, the 17 year old daughter of Fairman, earning less than \$5 a week, was doing her best to keep the family together while waiting for the father to be returned to them. Etta called on the governor today to make her final plea and she was overwhelmed with joy when he placed in her hands the pardon restoring her father's liberty. She hastened to the penitentiary and together with her father they left the institution.

THE GREAT WHITE PLAGUE.
If You Have Tuberculosis,
The careful and clean consumptive is not dangerous to those with whom he lives and works.

Go at once to a first-class physician or to a dispensary for examination. Delay is dangerous.

Spend as much time as possible day and night in the open-air. Eat plenty of plain wholesome food. Rest as much as you can; never allow yourself to become fatigued.

When you spit, use a cuspidor containing water, sputum cups, or a paper or cloth which can be burned. Don't cough or sneeze without holding a paper handkerchief before your face.

The knives, forks, and dishes used by a consumptive should be thoroughly boiled and kept separate from the family dishes so that they may not infect others in the family.

Be sure that the bed-clothes used by a consumptive are not used by anyone else and are properly sterilized by boiling.

Never take advertised consumptive cures. They are worthless.

There is no medicine known which will cure consumption.

Do not take alcoholic drinks; they only make it harder for you to get well.

Sleep out of doors, as much as possible, with the body warmly covered, but if inside, keep your windows always wide open.

Be hopeful and expect to get well—fresh air, good food, rest and good spirits will accomplish wonders.

Every effort made to decrease the total of preventable diseases adds so much to the happiness of our people

POSSE HUNTS BRUTAL NEGRO IN MOUNTAINS

Morgantown, W. Va., Dec. 23.—The young daughter of A. B. Peters was assaulted, shot and killed today at her home in Cascade, a mining town in Preston county, by an unknown negro. The authorities and a posse are trailing the murderer with bloodhounds in the mountain districts. The murder was one of the most brutal in the history of the state. The negro came from the mining country of western Pennsylvania, where he is said to have learned of the Peters family.

He went to the Peters home and was ordered away, but he returned again and was permitted to sleep in the kitchen. He arose before the members of the family were up and assaulted and killed the girl.

HEALTH HINT FOR TODAY.
Insomnia.
The insomnia of indigestion is a particularly disagreeable type, as it is allied with a nervous restlessness. If you have it get up speedily and move about for awhile, slowly drinking several glasses of water. Realize early that until you have helped your stomach to the victory you will not sleep. On the other hand, an empty stomach may keep one awake just as obstinately as an overfull one. In this case, however, the remedy is easy. Take a cupful of hot milk slipped slowly. Some people keep themselves wakeful by getting mentally excited late in the evening, and of all forms of mental excitement anger and fear are the worst.

ABE MARTIN SAYS:
ALFALFA IN OHIO.
Alfalfa as a farm crop in Ohio has risen during recent years from a position of doubtful adaptation to one of recognized value; though its utilization is by no means as extensive as its merits would warrant. In order to obtain more definite knowledge respecting the actual experience of farmers with alfalfa, the Ohio experiment station, at Wooster, has made a state-wide survey of this crop and the information thus obtained has been brought together in circular 113, just issued, and which describes the practice of farmers in all parts of the state who are successfully growing alfalfa.

The questions of soil, time and manner of seeding, liming, drainage, manuring, fertilizing, cultivating, harvesting, economy of production and marketing are treated in this circular in a way to answer the questions where to grow alfalfa, under what conditions it is most likely to succeed and under what ones to fail. The circular will be sent free to any applicant. Address, Experiment Station, Wooster, Ohio.

Shenandoah, Pa.—Joseph Reed and Thomas Leaven, two miners who were entombed in the Packer Colliery of the Lay Valley Coal Co., early last night will spend Christmas with their families. They were rescued today uninjured.

Starts Much Trouble.
If all people knew that neglect of constipation would result in severe indigestion, yellow jaundice or virulent liver trouble, they would soon take Dr. King's New Life Pills and end it. It's the only safe way. Best for biliousness, headache, dyspepsia, chills and debility. 25c at F. D. Hall's.

THE COST OF WAR.
War cannot be abolished, but a great deal of good can be accomplished if wars can be limited, say, one to every fifth century. War never settles anything. It is an endless screw and does more harm than good. It is a detriment and drawback to humanity. If international peace is obtained, then the treasury of the people will not be drained. At present \$1,500,000,000 is spent annually on armaments, and soon the amount will reach \$2,000,000,000.—Count Apponyi.

FIFTY PERSIANS KILLED.
London, Dec. 23.—Fifty Persians were killed during street fighting between the Russian troops and Persians in the city of Tabriz, according to official telegrams from Teleran. The Russians occupy all the government offices as well as the telegraph station. They bombarded the governor's palace and demolished many private buildings with their artillery. Several Persian officials were killed.

ALFALFA IN OHIO.
Alfalfa as a farm crop in Ohio has risen during recent years from a position of doubtful adaptation to one of recognized value; though its utilization is by no means as extensive as its merits would warrant. In order to obtain more definite knowledge respecting the actual experience of farmers with alfalfa, the Ohio experiment station, at Wooster, has made a state-wide survey of this crop and the information thus obtained has been brought together in circular 113, just issued, and which describes the practice of farmers in all parts of the state who are successfully growing alfalfa.

The questions of soil, time and manner of seeding, liming, drainage, manuring, fertilizing, cultivating, harvesting, economy of production and marketing are treated in this circular in a way to answer the questions where to grow alfalfa, under what conditions it is most likely to succeed and under what ones to fail. The circular will be sent free to any applicant. Address, Experiment Station, Wooster, Ohio.

Starts Much Trouble.
If all people knew that neglect of constipation would result in severe indigestion, yellow jaundice or virulent liver trouble, they would soon take Dr. King's New Life Pills and end it. It's the only safe way. Best for biliousness, headache, dyspepsia, chills and debility. 25c at F. D. Hall's.

THE COST OF WAR.
War cannot be abolished, but a great deal of good can be accomplished if wars can be limited, say, one to every fifth century. War never settles anything. It is an endless screw and does more harm than good. It is a detriment and drawback to humanity. If international peace is obtained, then the treasury of the people will not be drained. At present \$1,500,000,000 is spent annually on armaments, and soon the amount will reach \$2,000,000,000.—Count Apponyi.

FACE DISFIGURED WITH ECZEMA

Covered with Eruption to Back of Ears So They Hardly Knew What He Looked Like. Used Cuticura Soap and Ointment. In 4 Weeks Face Fine and Clean.

"Our little boy Gilbert was troubled with eczema when he was a few weeks old. His little face was covered with sores even to back of his ears. The poor little fellow suffered very much. The sores began as pimples, his little face was disfigured very much. We hardly knew what he looked like. The face looked like raw meat. We tied little bags of cloth over his hands to prevent him from scratching. He was very restless at night, his little face itched. We consulted two doctors at Chicago, where we resided at that time. After trying all the medicine of the two doctors without any result, we read of the Cuticura Soap and Ointment. Following the directions carefully and promptly we used the result, and after four weeks, the dear child's face was as fine and clean as any little baby's face. Every one who saw Gilbert after using the Cuticura Remedies was surprised. He has a head of hair which is a guide for any boy of his age, three years. We can only recommend the Cuticura Remedies to everybody." (Signed) Mrs. H. Albrecht, Box 885, West Point, Neb., Oct. 26, 1910.

Although Cuticura Soap and Ointment are sold throughout the world, a liberal sample of each, with 32-p. book on the skin will be sent free, on application to Holter Drug & Chem. Corp., Dept. 143, Boston.

PRESIDENT OF SCHOOL BOARD MAKES REPLY

Dr. O. M. Kramer of Hebron Answers Communication of Four Members Board of Education.

Hebron, O., Dec. 23.—In reply to a communication signed by four members of the Hebron school board, which appeared in yesterday's issue, it will be necessary for me to go somewhat into detail, as to the existing condition of our school.

Some time ago a state inspector notified the Hebron school board in person that it would be necessary for them to erect fire escapes, and unless we did so we would not be permitted to hold school, and if we did hold school we would be held liable. The inspectors request however has been completely ignored, and in addition to our school building not being equipped with fire escapes it is also too small to accommodate the present enrollment of scholars, which necessitates the holding of school in our city building.

This building is a small two story frame structure with the city prison on the first floor, and no exit from second floor, where school is being held, except a closed stairway, and is on the opposite side of the street from the school building, making it necessary for the scholars to cross the interurban track, in going to and from said building.

To relieve this congested condition a resolution was read at a recent meeting of the board asking them to submit to the voters a proposition asking for a bond issue of \$10,000 to be used in remodeling and building an addition to our old school building. This resolution was not favorable to the majority of the board and was never acted upon, and which leaves us with the same old fire trap that we had when the inspector was here.

Realizing that conditions were desperate, and no hopes of remedying them in the way of improving our school building, I suggested to several members of the board to send our High school scholars to Newark and they advised me that we had better find out if such action would be legal, and if arrangements could be made with the Newark school board, before bringing it before our board here for action. This I told them I would do, and when the Columbus a few days ago I saw the State School Commissioner, who advised me to take the matter up with the prosecuting attorney of our county, which I did and was informed by him that such action would be legal. I then addressed a letter to Superintendent Wilson Hawkins of the Newark schools, asking him that in the event our board should decide to discontinue our high school, if they could arrange to accommodate them.

My communication was presented to the Newark school board by Superintendent Hawkins, which was acted upon favorably by them, and was published along with other business of the board. Now I cannot see where I am responsible for any act that I should be accused of "having anything else at heart but loyalty to Hebron and the best interests of our schools" when I have always been in favor of better teachers, remodeling the old school building, and better conditions in general, and I feel that the majority of the good people of Hebron are with me in this matter.

Now, patrons, I ask you to judge for yourselves, who has the interest in the Hebron schools?

Wishing you a Merry Christmas, and Happy New Year.
Believe me sincerely yours,
DR. O. M. KRAMER,
President Hebron Board of Education.

THE GERM WHICH PRODUCES DANDRUFF

Finally Causes Baldness—Kill the Germ and Save Your Hair—Newbro's Herpicide Will Do It.

Did you ever try to discover a reason for the dying of a valuable plant? You perhaps found that life was destroyed by some insect or parasite working about the roots and sapping away the elements which go to support plant life.

The dandruff germ exercises the same destructive influence upon the life of the hair. It forces its way down the follicle around the hair bulb and thus prevents the hair from getting proper nourishment. The hair dies and drops out.

Newbro's Herpicide prevents this by killing the germ. It also frees the scalp from the accumulation of dirt and sebum. With the removal of these obstacles to a clean healthy scalp, the hair will grow naturally and luxuriantly.

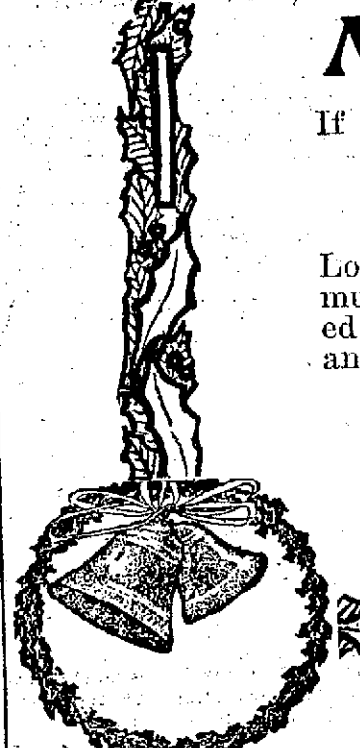

Herpicide is known as the Original Dandruff Germ Destroyer.

One dollar size bottles are sold and guaranteed by all druggists.

Applications may be obtained at the better barber shops and hair dressing parlors.

Send ten cents in postage or silver to The Herpicide Co., Dept. R., Detroit, Mich., for a nice sample of Herpicide and a booklet telling all about the hair.

A NEW RULING.
Secretary of State Graves has decided that where a candidate before a primary election does not expend any money or anything of value or make any promises he is not required to file a statement under the Kimble corrupt practices act, writes the Van Wert Bulletin. It was also held that where a candidate is required to file such a statement and delays returning the same within the ten days required by law, he is entitled to receive his certificate of nomination if he afterward complies with the statute.

MAYOR BRAND WHITLOCK LIKES M. R. SCOTT BOOK

"Crimes and Criminals" is the title of Milton R. Scott's latest book to which reference has already been made in these columns. The book has had a large sale in Newark. Mr. Scott has just received the following endorsement from the famous mayor of Toledo, Hon. Brand Whitlock: "Thank you so much for the copy of 'Crimes and Criminals' which came this morning. I have gone through every page with very great interest and complete sympathy. Your attitude towards the criminal and the whole problem of the criminal is eminently just, manly and Christian and I like very much what you have written."

Yours very sincerely,
BRAND WHITLOCK,
Mayor of Toledo.

The price of "Crimes and Criminals" is 75 cents; by mail 80 cts. d.w.t.

Saved Many from Death.
W. L. Mock of Mock, Ariz. believes he has saved many lives in his 25 years of experience in the drug business. "What I always like to do," he writes, "is to recommend Dr. King's New Discovery for weak, sore lungs, hard colds, hoarseness, obstinate coughs, la grippe, croup, asthma or other bronchial affection, for I feel sure that a number of my neighbors are alive and well today because they took my advice to use it. I honestly believe it's the best throat and lung medicine that's made." Easy to prove he's right. Get a trial bottle free, or regular 50c. or \$1.00 bottle. Guaranteed by Frank D. Hall.

WORTH NOTING

(The Mahin Messenger.)
If you are up against a "cunning" man and want to go him one better—be square with him.
Says a wise executive: "If I want to get a thing done I pick out a busy man to do it. The reason men are busy is because they know how to do things."

Self-satisfied men seldom show very much initiative or versatility—the two most important attributes to unusual success.

Don't put off the tiresome routine duties. Get them cleaned up first, then you can go at the creative work of the day with a clear conscience and enthusiasm.

REGISTRATION DAYS

City registrars will be at the registration places Saturday between the hours of 4 and 9 p. m.

TO INTRODUCE
AGRICULTURE
IN SCHOOLS

Granville Grades to Have Innovation
—News of the Historic and Hus-
tling Little City

Granville, Dec. 21.—That the Gran-
ville public schools rank among the
leading educational institutions of this
grade in the state is due largely to
the fact that they are governed by a
most excellent board of education and
also because of the efficiency and per-
sonnel of the superintendent. For
some time past it has been the aim to
introduce advanced methods in the
Granville schools.

Agriculture will be introduced in the
High school as well as in the grades
at the beginning of the second semes-
ter the first of February. It is the
aim and purpose of those who teach
in this important branch to make it
just as interesting and practical as
possible.

During the last week of the winter
term there will be a contest in the
High school. Regular study in spell-
ing has been introduced and all the
classes are working to keep up a good
showing in this important branch.
The contest will be between classes,
the class winning that has the high-
est average per cent in words spelled
correctly.

At the St. Luke's Episcopal church
Sunday the services will be held at the
usual hours, and will be conducted by
the Rector, A. Ramsey. The subject
for the evening discourse will be one
that will be appropriate to Christmas.
Sunday school will be held at 11 a. m.;
celebration of Holy Communion
Christmas morning at 7:30 o'clock.
Children's service in the Guild Hall,
Thursday evening, December 26, at 7
o'clock.

Miss Hallie Owens of Chicago, ar-
rived home Friday to spend the holi-
days with her parents, northeast of
town.

Some of the good people of Gran-
ville have been setting up a wall be-
cause of the vast number of young
cedar, pine and fir trees that are cut
each year to supply the demand for
Christmas trees. They fear that the
forests are being jeopardized and hint
at the wisdom of providing a substi-
tute for the Yuletide tree. These
anxious ones should calm down. The
danger they foresee, if it really exists,
is too remote for serious consideration.
Anyone who has purchased a Christ-
mas tree knows that the nursery-
grown tree is far superior to its wild
brother from the forest and the nur-
serymen realizing a fair profit in the
business are each year increasing their
supply of Christmas tree stock. For-
estry teaches how to conserve and re-
plenish the timber supply but none
conversant with the subject has yet
advanced the theory that the elimina-
tion of the demand for Christmas
trees will solve the problem of restor-
ing denuded forests and preserving
them for future generations. Let the
Christmas tree continue to gladden
hearts, young and old at the happy
Yuletide season. In comparison with
the nursery tree very few wild trees
are used for Christmas.

With only a few hours before the
ushering in of the gladdest Christmas
day, the average household is a place
of mystery to the younger element at
least. The Christmas spirit is work-
ing over time and the majority of our
people are happy over the prospects
for happy Yuletide season.

being an industrial center, still we
have several plants that are doing a
good business, among which is that
of the structural concrete block
manufacture, of which Mr. W. A.

the head. Since the plant was started
in Granville business has wonderfully
increased and Mr. Rusler has found
that his present factory is unable to

UTICA

The boys who have been attend-
ing the various colleges of the state
are home for their Xmas vacation.
Utica seems to have her share of
fires. Last Sunday morning the Ad-
vance Glass Company factory was
burned. Tuesday evening the home
of Ben Ames on South Washington
street was totally destroyed. In the
former case the water-works could
not be used, in the latter, however,
was used very effectively.

Last Thursday evening Mr. W. D.
Cheadle gave a skate at the rink in
honor of the Boy Scouts of our vil-
lage. About fifteen couples were
present. At 9:30 Mesdames Brown
and Abbot surprised the girls and
boys by serving ice cream and cake.

Owing to the fact that revival ser-
vices are in progress at Martinsburg
there was no preaching at the M. E.
church last Sunday evening.

The public schools closed Friday
for their regular two weeks Xmas
vacation. The teachers are planning
to spend the time at their respective
homes: Miss Deck to Ottawa, Miss
Morton to Brownsville, Miss Baker
to Marion, Miss Gattrell to Circle-
ville and Mr. Ralston to Frederick-
town.

The regular Xmas entertainments
will be held this year, one at the
Presbyterian church on Saturday
night and one at the M. E. church on
Monday evening.

Miss Mary Bricker who has been
attending school at Oberlin will
spend her vacation at the home of
her parents Mr. and Mrs. D. A.
Bricker.

Mrs. H. L. Williams and family

have returned from Zanesville after
Mr. Williams' death, and expect to
remain here for a short time.

The next number of our public en-
tertainment course will be given on
Monday evening, January 15.

The regular annual session of the
Farmer's Institute will be held in

the Town Hall January 24 and 25.
Good speakers have been secured for
the occasion.

The revival services at the Dis-
ciple church are still in progress.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

AMUSEMENTS

Press Agent Says:

"The Blue Mouse." Guaranteed by the "Pure Fudge" laws to contain no harmful ingredients, such as the old-joke microbe. "I know you, but you don't know who I am" bacilli, or "this is no place for a lady," self-respect destroying germ, "The Blue Mouse" a Clyde Fitchian concoction of 5 per cent. humor, one per cent. nonsense, 15 per cent. cleverness, and 75 per cent. intoxicants (described in the pathological treatise of Dr. You-Can't-Make-Me-Laugh, as Pure Fun), has been bottled by Mr. E. J. Carpenter, and can be had for the asking at the Auditorium next Xmas, matinee and night. One dose of this elixir—the formulae is plainly stamped on the outside of each bottle—is guaranteed to turn the silver lining of the darkest cloud. After two doses you will write an eulogy on your mother-in-law. Mr. Carpenter, the official bottler, disclaims any responsibility for after-effects when more than two doses are taken. Each bottle, however, contains three doses.

"The Girl From Rector's." Has the time come that selfish vice contrasted to the superiority of the proper point of view, and the higher intellectuality of rightful endeavor is to be proclaimed immortal—to say "The Girl From Rector's" is immoral is certainly to stand in the path of progress, and to confess oneself so utterly hide-bound and conventional that shock is contained in the mere mention of the girl's name. Here we have a silly effort of viciousness to lay its foul influence at the door of circumstances in a pitiless yet logical manner. In truth the story is nothing of the sort for if every one burrowed down beneath the surface of smug satisfaction, this one does. The engagement is for Wednesday, Dec. 27th, at the Auditorium.

Italian Turkish War Pictures. The engagement of the Italian Turkish war pictures will terminate tonight. For the past week these celebrated pictures have been playing to series of full houses at the Auditorium.

THE ORPHEUM. Don't fail to see the B.M. which opens at the pretty Arcade playhouse Xmas day, as it is said to consist of the best in vaudeville. Every act up to the minute and offering something

new and original. One of the features will be presented by the Woods Ralton Co., well known artists, who offer a classic musical act. They come to Newark direct from the Keith circuit where they are said to be the hit of the season so they are sure to please here. Weston and Allen are two old-time favorites in the vaudeville field with a new line of comedy which makes a hit. They have their clever way of entertaining and it seems to be just what the people are looking for. Williams and Culver have a very entertaining singing and talking act. Both are said to have well trained voices and a new line of songs and clean comedy talking. The Burtons are sensational and comedy slack wire equilibrista, who featured in 1908 with Ringling Bros. circus and 1909-10 with Al. G. Field's Minstrels. They will offer up-to-date acrobatic knockabout comedy, hand balancing and an original idea in double slack wire novelties. The Orpheum will have a feature film. Kindly note that the tickets will be reserved for Xmas matinee and no doubt it would be wise to secure them early.

SUCCESS WON BY A NEWARK GIRL IN GRAND OPERA

Miss Zoe Fulton, Prominent in Aborn Company Will Be Heard Here For First Time.

With the Aborn English Grand Opera company, which will present Puccini's masterpiece, "Madam Butterfly," at the Auditorium on Thursday, January 4th, residents of Newark will have their first opportunity to see Miss Zoe Fulton, a former resident of this city in grand opera. She will appear in the role of Suzuki, which is said to be one of her most striking successes. Quite a number of Newark music lovers will also go to Columbus during the latter half of Christmas week to hear Miss Fulton in other roles with the Aborn forces at the Colonial Theatre, where they will present four different operas.

It was two years ago that Miss Fulton was first engaged by the Aborn management through a unique method they have for selecting new and un-

tried artists for their various grand opera organizations. This is known as a weekly "try-out" which they hold in connection with each of their companies when appearing for long runs in New York, Boston, Chicago and a few other large cities. Most of the singers who exhibit their talents at these weekly voice trials are only engaged for chorus work at the start, while now and then a really remarkable voice is discovered. The latter was the result in Miss Fulton's case, for she was hailed by Milton and Sargent Aborn as a "discovery" and at once placed her under contract for a term of years. They put her into important roles at once, in all of which she won gratifying success, particularly in that of Suzuki in "Madam Butterfly." Before that time, she had appeared only in light opera and musical comedy productions, such as Grace Van Studdiford's presentation of "The Golden Butterfly," and several of Henry W. Savage's attractions.

At the beginning of this season Messrs. Aborn had figured on sending Miss Fulton with "The Bohemian Girl" in the role of the Gypsy Queen, which gave rise to the rumor that she would appear here with that company some time ago, but her marked versatility makes her more valuable to a company giving five different operas, like the Aborn English Grand Opera company.

Miss Fulton was born in Newark, and her father and mother, Mr. and Mrs. Thomas B. Fulton are still valued residents of this city. Miss Zoe was brought up here, and graduated from the high school, after which she attended the Cornell Conservatory at Ithaca, N. Y., for two years. The remarkable voice she developed there, a mezzo-soprano of a contralto and soprano range and great power and flexibility, was further trained by John Dennis Mehan, one of the foremost vocal teachers in New York City, with whom she still studies whenever she is in or near New York.

PROF. OSLER RIGHT YOUTH ALWAYS SUCCEEDS AGE

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them, act promptly. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well known fact that Sage and Sulphur will darken the hair. Wyeth's Sage and Sulphur combines these old time remedies with other agents which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy authorize the druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

Don't look old before your time. Get a bottle of Wyeth's Sage and Sulphur today, and see what an improvement it will make in the appearance of your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

Special Agent—F. D. Hall, 10 North Side Square.

THE HOLIDAY AMUSEMENTS XMAS WEEK

Next week the amusements of the city will again take up the stride which has been diminished during the past week owing to the pre-Christmas rush.

On Monday, Christmas day, the Orpheum theatre after being dark for a week will reopen. The Auditorium Theatre will have for its Christmas Day attraction "The Blue Mouse." This play of Clyde Fitch's is a bright and clever farce comedy and will be a delightful bit of entertainment for the beginning of a week of festivity.

Some other attractions for the week will be "The Girl From Rector's" and "The Fighting Parson."

There have been a number of house parties planned at homes of the younger people home from school and the week will be crowded with dances and parties.

TAKES HORSE FROM BARN ON O'BANNON AVE.

Wallace Wilkins, a resident of O'Bannon avenue, East Newark, reported to the police department Saturday morning that some one entered his barn Friday afternoon and took a horse belonging to him. The halter was removed from the animal's head and tied to the stall, the caller evidently having brought a halter. Wilkins told the police that a Rocky Fork farmer thought he had a chattel mortgage on the animal and it is supposed that he was "foreclosing" the mortgage without the legal formalities. And the man lived outside of the city limits, he was referred to the courts of the justices of the peace for relief from his trouble. He was admitted to the farmer's home and recovered the property.

BAD WEATHER SPOILS TRADE FOR MERCHANTS

An Advocate reporter in his rounds Saturday took occasion to drop in at many of the business houses and interview the managers of the stores as to the volume of Christmas business this year, and how it compared with that of last year. A large majority of the persons interviewed unhesitatingly said that business had been very bad, and that it did not begin compare with that of last year at this time. A number, however, said that business with them had been good, and they were of the opinion that it was a shade better than last year. While this may be true, the fact that the holiday trade has not been up to what it was expected, remains, and this may be accounted for by the fact that the weather for the past several weeks has been such as to preclude much shopping by the ladies, who generally do the Christmas shopping, and also to the fact that money has been a little tight for some time. During the past few days the stores have been crowded with buyers, which has had the effect of greatly encouraging the merchants who laid in large stocks of holiday goods.

POST OFFICE WINDOWS ARE OPEN MONDAY

On Christmas the general delivery and stamp windows will be open until 10 o'clock a.m. The regular rural delivery will be made and the city carriers will make one complete delivery in the morning.

Sunday the general delivery window will be open between 2:30 and 5 o'clock and the carrier window will be open at the same hours. It is requested that as many as can possibly do so call for their mail on Sunday and thus relieve the carriers of big loads Monday morning.

Rev. F. E. Vernon, pastor of the First Presbyterian church of this city has accepted a call to the First Presbyterian church of Wenona, Ill. Rev. Mr. Vernon signified to the congregation of the First Presbyterian church here and the presbytery that he wished a dissolution of the pastoral relationship in last September.

This dissolution was considered by the Presbytery and granted to Mr. Vernon. Rev. Mr. Vernon has had under consideration the call to Wenona for some time and has decided to accept it, leaving the first of the year to take up his work in his new place.

It is not known who will succeed Mr. Vernon as the pastor will have to be selected by the church.

SOLDIERS SPEND XMAS ON TRAIN

A special train, consisting of two coaches and a baggage car, conveying a number of soldiers from the Columbus barracks to San Francisco, passed through the city Saturday morning over the Baltimore and Ohio Railroad. From this city they will go to Chicago over the Baltimore & Ohio, and from Chicago over the Chicago, Milwaukee and St. Paul, the Union Pacific and the Southern Pacific. There were about 80 soldiers in the party.

FARMER IS DEAD FROM EATING TOO MUCH FRESH PORK

Bucyrus, Dec. 22.—Jacob Songer, aged 80, a widower, purporting to be the wealthiest farmer in Crawford county, went to his son's house, ten miles east of Bucyrus, to assist in butchering. He ate heavily of the fresh pork and at noon started out to feed the hogs. Not returning for dinner, his daughter-in-law went to look for him and found him dead beside the pig-pen. His death is thought to have been due to heart failure, augmented by his heavy pork dinner.

The physical intoxication of victory, says a French scientist, enables an army to withstand pain, while defeat makes the soldiers easily succumb to disease.

LABOR NEWS

All delegates will bear in mind that the regular meeting of the Newark Trades and Labor assembly will be held Sunday morning at 9 o'clock. This will be the last session of the year and there should be a good attendance as there will be considerable business of importance to transact.

When President Archer called the assembly to order on November 26, there was a splendid attendance and all the officers were present with the exception of Vice President Hall and Brother August, of 152, filled the chair most satisfactorily.

The regular meeting held on December 11 was the largest held for some time and proved most satisfactory to all present. Secretary Volmer being unable to be present, ex-Secretary Morgan performed the duties of recording secretary and Robert E. Davis acted as chaplain.

Regarding the resolutions in reference to the McNamara brothers, presented by Brother Morgan, a committee consisting of Brothers Morgan, Davis and Litten was appointed. The resolutions were unanimously indorsed and placed in the hands of the press committee with instructions to have them printed in the daily papers.

We were greatly pleased to learn through the city papers that our delegate to the Newark Board of Trade had been elected one of the directors of said board. Brother Morgan is a splendid worker whom he is pleased. He is a booster from start to finish.

WONDERFUL CURE OF SCALP DISEASE

Hair Came Out in Patches, Goodhair Soap Brought Prompt Relief.

"I have had Eczema on my scalp for twenty years. Have declined with several doctors, but with no permanent good results. The first time I used Goodhair Soap my hair came out in patches as large as a silver half dollar. I was scared and thought I wouldn't have any hair left. I continued to use the soap. I was told it was only the dead hairs that had come away. I continued to use the soap, and now after three months, all those bald spots are covered with a good growth. My hair is better than ever. I have no Eczema, and my scalp never itches." Yours respectfully,

MAINE GAME PLENTIFUL

Fresh Fall of Snow Helps Deer and Moose Hunting.

Deer and moose are reported to be now well on the move in the Maine Woods and if the game continues as plentiful during the remainder of the season as it has been during the last 10 days this year will go on record as an exceptionally good one for hunters. Letters and advices received say that the conditions for still hunting are better than for some years past.

A blanket of snow from six to eight inches deep covers the entire hunting regions, putting the ground in ideal shape for tracking, says the New York Sun. The weather has been holding bright and cold. The assistant superintendent of the Portland Division of the Maine Central Railroad reports that 53 deer were shipped through Rumford Falls from stations east on Saturday morning. On the same day according to a letter from the station agent at Ogunquit, one party composed of 12 hunters from Philadelphia, Portland, and Boston shipped eighteen deer.
